Division 3. Air Resources Board

Chapter 1. Air Resources Board

Subchapter 5. Emission Data, Sampling, and Credentials for Entry

Article 1. Determination of Emissions

§ 91100. Emission Data and Sampling Access.

The Executive Officer of the Air Resources Board (State Board) or his or her authorized representative may, upon reasonable written notice, require the owner or operator of any substance, article, machine, equipment, or other contrivance, the use of which may cause the issuance of air contaminants, or the use of which may eliminate, reduce or control the issuance of air contaminants, to:

(a) Provide the State Board with descriptions of basic equipment, control equipment and rates of emissions. Where this information does not provide sufficient data for the State Board to carry out the purposes of Division 26 of the Health and Safety Code, or where such information is in question, the Executive Officer or his or her authorized representative may require such other additional information as may be necessary, including process and production data, techniques and flow diagrams.

(b) Provide sampling platforms, sampling ports, and means of access to sampling locations.

(c) Provide and maintain sampling and monitoring apparatus to measure emissions or air contaminants when the Executive Officer or his or her authorized representative has determined that such apparatus is available and should be installed.
